Democrats Abroad is the official Democratic Party organization for some six million American citizens who live outside the United States. We work to support the aims and principles of the Democratic Party. We are recognized as a "state" committee by the Democratic National Committee and are represented on the DNC by eight members.

Democrats Abroad has committees in over 30 countries in Europe, Asia, Africa and the Americas. These country committees are responsible for keeping Americans abroad informed of their rights and helping them to participate in the U.S. political process, even though they are far from home. Some country committees, such as Democrats Abroad Germany, are divided into local chapters.

Democrats Abroad Germany is one of thirty-five country committees of the Democratic Party Committee Abroad, which is part of the Democratic National Committee.
